Although this is a pre-season game plenty of excitement is expected in the afternoon's struggle.

The squad has been practicing strenuously all week and the members are anxiously awaiting tomorrow's Contest because of the opportunity to try for a starting position on the team.

The players should receive the enthusiastic support of the student body at the game to spur them on to their first victory of the season. Let's pass around the words, "Ill see you at the game".

INTRA-MURAL

In the past few years our intra-mural sports for men at F. T. C. have been, to a large extent, a failure. Games were scheduled but never played. The shedule became muddled and few knew who were playing or when they were supposed to play.

They were offered the innumerable excuses by people who thought they could play in intramural sports. Some were claimed to be too tired, yet they could go out the same afternoon or night and play for some outside team.

Now under our new system with a greater variety of sports and a better organized schedule of intra-murals we should have all the men in school active in at least one sport. We must remember that education includes physical education.

A HOUSE DIVIDED

Our threefold system of student government, in which each organization deals with its own special interests in most situations functions efficiently.

In matters concerning the whole school, however, the system operates only through makeshifts, or not at all. You know what these matters are; extra-curricula activities, blanket fee, alumni, the All-School Social, and the conferences. And such all-school problems will continue to arise.

At times in the past there have have been attempts toward integrating the three governing bodies, but none has gone past the discussion stage.

The student-faculty commitee last year tabled consideration of coordinating student government on the grounds of difficulty in getting a plan started, and of complexity in operation.

While we favor co-ordination, we are not trying to force any change. We are calling attention to facts; student sentiment alone can bring an action.

THE ASH TRAY

By Ed. O'Sheasy

FELLOW STOONTS:

Best story of the new semester to date---They were driving home. The night was dark, the road unfrequented, and it was past two o'clock. Suddently the motor coughed and the car stopped. The young man made an earnest effort to start the engine but failed. After looking over the engine, he turned to the girl and said "This is most unfortunate. The gasoline tank seems to be full of water and we can't move a foot." The girl was far less perturbed. She said, "Come on inside and stop looking worried. This has happened to me before. All we have to do is to sit in the back seat for about an hour and the water turns right back into gasoline."

Did You Know That:---?

High heels were invented by a woman who had been kissed on her forehead.

When a girl's face is her fortune, usually runs into a pretty figure.

People who take cold baths all winter seldom have colds. (but they have cold baths.)

Some people will do anything for money. Gearan's got a job.

There's no report yet of a reduction in the wages of sin.

Freshman: Isn't there some course I can take and complete without giving such a long time as four years to it?

Prof: That depends, my lad, on what you wish to make of yourself. When nature wants to make an oak she works away at it for a good many years. But if she only wants to make a squash she can do it in a few short months.

Despite the fact that four or five of the freshman were opportunely ill last Friday, our freshman class on the whole seems to be a rather excellant group—one worthy of the school and one of of which we can rightfully be proud. I am speaking, of course, of the male contingent—my vows of celibacy naturally clouding my vision whenever the opposite sex is present.

Daniels—I found somethin' very absorbing on your desk.

Lytle—(highly delighted) Indeed! One of my poems, I presume?

Daniels—No, a piece of blotting paper.

(In a lunch cart) If our steaks are to tough for you—get out. This is no place for a sissy.

(In a Nearby Library) Low versation Permitted.

And from the album——

SPORTS

W. A. A. RALLY

A gay crowd of F.T.C. women attended the annual W.A.A. Rally which was held in the gym yesterday afternoon from four until six. Teachers, upperclassmen, and freshmen met on equal terms while they enjoyed together the auto-decorated gym, played motor-minded games, and "refueled" at cider, doughnut, and apple stations. The high point of the rally occured when anxious freshmen discovered the color teams which are to be theirs for the next four years.

TENNIS

The Freshmen Tennis Tournament which is being held for the purpose of finding new talent for the 1938 varsity, is underway.

Freshmen who are taking part are;
Grabert, Brochu, Smith, Sullivan, Boyce, Mulski, Harvey, Frye, Freeman, Bennett, Laudner, Pearson, Stanley, and Houle.

Coach Eddie O'Sheasy and Manager Joe Dainels of the varsity team are in complete charge of the tournament.

Close on the heels of the freshman tennis tournament is a mixed doubles tornament which will be carried on during the week of October 11th to the 15th. It will be conducted jointly by the women's head of tennis, Mary Disken, and the fellows' tennis coach, Ed. O'Sheasy.

Anyone may enter the contest regardless of experience or ability because the object of the tournament is enjoyment. Matches will be played off at the contestants' convenience, and they will be their judges.

CROSS-COUNTRY

Cross-Country at F. T. C. will be in full swing for another season before long, Coach Lacouture announceed to your sports editor.

This year's squad has eight members, four upperclassmen and four freshmen. Stan English, John Guifoil, Lester Aldrich and Robert Manning are the seasoned men while Edward Harvey, George Joseph, James Brennan, and John Besnahan represent the Freshmen Class in whom the squad has high hopes.

A new two-mile course has been outlined for this season which should prove much better than the old course because it stretches through woods, cross fields and brooks while the old course was made up mostly of city pavements.

Manager Luokkola reports that athough the schedule for the season is not yet complete, contests with Cushing and Stockbridge Academies have been arranged.

RECEPTION HELD FOR TRAINING TEACHERS

SANDY

Sandy, the faithful collie dog of Mr. John Stanton of Pacific Street, passed away after having followed our postman about his route for the past eleven years.

Because blindness in one eye and a sore paw put him in constant danger of being run down by automobiles, it was found necessary to have him gassed.

Every morning Sandy used to meet the bus or wait at school for the postman. He always met the right bus, even when daylight-saving came. You just couldn't fool Sandy. At first he used to cover only a few houses but he gradually increased his distance until he covered the route from F. T. C. to East St.

In the beginning, a kitten and a chicken used to follow the post man. First the kitten died, then the chicken, and now Sandy has gone to join them in Animal's Paradise.

The postman had this to say of Sandy, "He was a great dog just the same. He really took his job seriously."

The postman misses Sandy; he still looks for him.

"If the dean doesn't take back what he said to me, I'll leave chool."

"What did he say?"

"He just told me that I had flunked all my subjects."
